

**CV OF JOHN RACKHAM**

1. I, John Rackham, am a Chartered Land Surveyor (FRICS), by examination, working exclusively in the field of boundary demarcation and boundary disputes.
2. I received my early professional training with Hampshire County Council undertaking topographical surveys for highway projects.
3. I gained overseas experience firstly in Bermuda where I undertook topographical surveys, and advised the Government on survey boundary demarcation matters as and when required. I also worked in Bahrain on a national land inventory project which involved reconciling the title deed boundaries with the ground topographical features.
4. In recent years, I have mainly worked for civil and structural engineering consultancies producing surveys which included topographical features to allow for demarcation of the site boundary limits. I have also written specifications and managed aerial and ground mapping surveys to enable the design of road and rail infrastructure projects.
5. I studied at the North East London Polytechnic (University of East London) and sat the RICS Finals Examination.
6. I am a member of the Royal Institution of Chartered Surveyors (RICS).
7. My OS (Ordnance Survey) Copyright License Number and Digital Copyright License Number is ES100020329.
